

MUELLER® 300™

BALL CURB VALVE

Mueller Co.

7.1

Shaded area indicates change Rev. 4-14

The MUELLER 300 Ball Valve is an optimized design combining a strong, reliable ball/stem connection with other desired features, including a blow-out-proof stem,

double O-rings and a 300 psig working pressure rating. The design offers true bi-directional (two way) flow.

All service brass will comply with AWWA C-800. Components in contact with potable water will also comply with latest requirements of the Federal Safe Drinking Water Act.

MUELLER 300 Ball Curb Valve

- ❑ BLOW-OUT-PROOF STEM DESIGN - prevents separation and assures dependable, safe operation.
- ❑ OPTIMIZED KEY TO BALL CONNECTION - provides strong, reliable performance and resists breakage.
- ❑ FULL THREAD DEPTH - and drill depth on F.I.P. thread ends (meets ANSI/ AWWA C800 Standard).
- ❑ FULL ROUNDWAY - provides straight-through flow (reduced port available).
- ❑ END PIECES O-RING SEALED - to provide additional protection against leaking.
- ❑ MANUFACTURED AND TESTED - to ANSI/AWWA C800 Standard.
- ❑ DOUBLE O-RING SEALS - are supported in precision machined grooves and provide secure, leak - tight sealing.
- ❑ SUITABLE - for use as test valves on Backflow Preventers (complies with Notice 89-001 of F.C.C.C. and H.R.).
- ❑ 300 PSIG - maximum working pressure.
- ❑ QUARTER TURN CHECK - is integrally cast on body to assure positive action. Checkless 360° turn is optional.
- ❑ FLUOROCARBON COATED BALL - ensures smooth, easy turning operation.
- ❑ STAINLESS STEEL REINFORCED SEAT assures reliable seal under full flow and pressure.
- ❑ END CONNECTIONS include copper flare, MUELLER 110® Compression Connection, Pack Joint Connection, Copper Flare, M.I.P and F.I.P. thread.
- ❑ HEAVY BRASS COMPONENTS - constructed of solid brass

The MUELLER® MARK II ORISEAL® Curb Valve has a sturdy one-piece, closed-bottom body that differs from other designs by reducing the number of potential leakage points. The closed bottom design minimizes exposed moving parts. The large tee head and plug are integrally cast as one strong piece to resist twisting and breaking.

In addition, the O-ring sealed design allows the plug to turn easily in the body, with a minimum of torque. The top and port O-rings are fully supported in machined grooves to provide positive sealing. All of these features combine in the MUELLER MARK II ORISEAL Curb Valve to provide reliable performance and long-term reliability.

All service brass will comply with AWWA C-800. Components in contact with potable water will also comply with latest requirements of the Federal Safe Drinking Water Act.

MUELLER MARK II ORISEAL Curb Valve

- ❑ TOP SEALING O-RING - seals top of valve.
- ❑ FREE TURNING PLUG - eliminates metal-to-metal seating for easy turning.
- ❑ ENGINEERED ENTRY ANGLE provides smooth transition to flow passage with minimum flow loss.
- ❑ PORT SEALING O-RING - assures positive shut-off and easy turning.
- ❑ HIGH STRENGTH INTEGRAL CHECKS - assure positive quarter turn operation and are equal in strength to the tee head.
- ❑ LARGE TEE HEAD is an integral part of the plug. The tee head also indicates if the valve is opened or closed.
- ❑ CLOSED BOTTOM minimizes exposed moving parts.
- ❑ LOW FRICTION THRUST WASHER reduces friction between plug and snap ring for easy turning.
- ❑ MANUFACTURED AND TESTED - to ANSI/AWWA C800 standard.
- ❑ PROTECTIVE TOP - has diameter larger than body and tee head to prevent a curb box from interfering with the tee head operation.
- ❑ 175 PSIG - maximum working pressure.
- ❑ ELONGATED ROUND WAY - provides straight through flow passage with low pressure loss.
- ❑ HEAVY BRASS COMPONENTS constructed of brass for strength and durability.
- ❑ END CONNECTIONS include copper flare, MUELLER 110® Compression Connection, MUELLER INSTA-TITE® Connection, Mueller Pack Joint and F.I.P. thread.

MUELLER® ORISEAL III® AND MUELLER ORISEAL® CURB VALVES

Mueller Co.

7.3

Shaded area indicates change Rev. 8-14

All service brass will comply with AWWA C-800. Components in contact with potable water will also comply with latest requirements of the Federal Safe Drinking Water Act.

MUELLER ORISEAL III Curb Valve

- MANUFACTURED AND TESTED - to ANSI/AWWA C800 standard.
- HEAVY BRASS COMPONENTS constructed of brass for strength and durability.
- END CONNECTIONS include copper flare, MUELLER 110® Compression Connection, MUELLER INSTA-TITE Connection, and F.I.P. thread.
- INTEGRAL TEE HEAD AND PLUG for solid one-piece strength.
- HIGH STRENGTH INTEGRAL CHECKS assure positive quarter turn operation. Checkless 360° turn design also available.
- LOW FRICTION THRUST WASHER reduces friction for easy turning.
- CLOSED BOTTOM minimizes exposed moving parts.
- 175 PSIG maximum working pressure.
- TOP O-RING provides pressure sealing to outside.
- PORT O-RING provides effective sealing regardless of flow direction.
- FULL ROUND PORT OPENING for maximum flow and minimum pressure loss.

MUELLER ORISEAL Curb Valve

- HEAVY BRASS COMPONENTS constructed brass for strength and durability.
- MANUFACTURED AND TESTED - to ANSI/AWWA C800 standard.
- END CONNECTIONS - include copper flare and F.I.P. thread.
- HIGH STRENGTH INTEGRAL CHECKS - assure positive quarter turn operation.
- INTEGRAL TEE HEAD AND PLUG - for solid one-piece strength.
- FLUOROCARBON COATED PLUG - assures easy turning.
- TOP AND BOTTOM O-RINGS - for positive pressure sealing, easy turning.
- 175 PSIG - maximum working pressure.
- PORT O-RING assures positive shut-off and easy turning.
- FULL OPENING ROUND PORT- for maximum flow and minimum pressure loss.

All service brass will comply with AWWA C-800. Components in contact with potable water will also comply with latest requirements of the Federal Safe Drinking Water Act.

MUELLER® Inverted Key Curb Valve

- ❑ Strong operating head to key attachment.
- ❑ Heavy brass components constructed of brass for strength and durability.
- ❑ Manufactured and tested in accordance with ANSI/AWWA C800 standard.
- ❑ Strong checks provide positive quarter turn operation.
- ❑ End connections include copper flare connection, MUELLER 110® Compression Connection, Pack Joint Connection and F.I.P. thread.
- ❑ Elongated round way port.
- ❑ 100 psig (690 kPa) maximum working pressure (through 1" size).

As the name implies, the large diameter of the Inverted key is on the bottom. The key is held in place by a bronze base cap. Water pressure from the inlet side of the body exerts an upward force on the bottom of the key, providing additional seating action. The stop is operated by tapping on the combined cap and tee head to unseat the key; the water pressure will reseal the key.

MUELLER Solid Tee Head Curb

- ❑ Key nut is designed so overtightening will strip threads instead of breaking stem.
- ❑ Heavy brass components constructed of 85-5-5 ASTM B62 brass for strength and durability.
- ❑ Manufactured and tested in accordance with ANSI/AWWA C800 standard.
- ❑ 100 psig (690 kPa) maximum working pressure through 1" size - (larger valves rated 80 psig, 552 kPa, maximum working pressure).

Optional tools for use with MUELLER INSTA-TITE Connections

Pipe beveling tool

To assure proper installation, the end of the pipe or tubing must be properly beveled before it is inserted into the MUELLER INSTA-TITE Connection. MUELLER CO. offers a special beveling tool for both CTS PE tubing and IPS PE pipe.

PART NUMBER: **H-18015** for 3/4" and 1" CTS tubing
PART NUMBER: **H-18017** for 3/4" and 1" IPS pipe

Pipe removal tool

Pipe or tubing may be removed from the MUELLER INSTA-TITE Connection using special removal tools. Use one tool for 3/4" size connection and two tools for 1" size.

PART NUMBER: **506336**

CURB BOXES - IMPROVED EXTENSION TYPE WITH ARCH PATTERN BASE

Mueller Co. **7.25**

Shaded area indicates change Rev. 9-09

Improved extension type curb box with arch pattern base - for 1/2" through 2" curb valves

The arch extends around the curb valve and has a large foot surface to transmit loads into the ground beneath the curb valve, rather than to the curb valve itself. The box is cast iron and is furnished with a cast iron lid and brass pentagon plug. The upper part of the box is spring loaded and telescopes into the base to allow for grade adjustment within the range given in the dimensions charts. Stationary rods (Stainless Steel optional), shut-off rods and pentagon keys are optional and are ordered separately.

Foot piece
(valve not included)

Optional foot pieces

Optional foot pieces provide a firm base for the curb valve and helps to prevent the curb valve from moving when the valve is operated. This is especially important when a plastic service line is used.

CURB BOXES - EXTENSION TYPE WITH ARCH PATTERN BASE

Extension type curb box with arch pattern base-for 1/2" through 2" curb valves

The arched base rests on top of the valve and extends down around the valve head to help exclude dirt and debris. The box is cast iron and is furnished with a cast iron lid and brass pentagon plug (the H-10314 is furnished with a one piece lid that requires a spanner wrench to remove – wrench ordered separately). The upper part of the box is spring loaded and telescopes into the base to allow for grade adjustment within the range given in the dimension charts. Stationery rods, shut-off rods, and pentagon keys are optional and are ordered separately.

TO ORDER BOXES SPECIFY EXTENDED LENGTH, SIZE OF MINNEAPOLIS THREAD AND CATALOG NUMBER

CURB BOXES - EXTENSION TYPE WITH MINNEAPOLIS PATTERN BASE

Extension type curb box with Minneapolis pattern base - for 1/2" through 2" curb valves

The base is tapped to attach to the threaded top of the Minneapolis pattern curb valves. This arrangement helps to prevent frost heave from separating the box from the valve, and excludes dirt and debris. The box is cast iron and is furnished with a cast iron lid and pentagon plug (the H-10312 is furnished with a one piece lid that requires a spanner wrench to remove –wrench ordered separately). The upper part of the box is spring loaded and telescopes into the base to allow for grade adjustments within the range given in the dimension charts. Stationary rods, shut-off rods, and pentagon keys are optional and are ordered separately.

Optional Reducing

Bushing part number	Bushing size	Minneapolis thread size
H-10343	2"x1-1/2"	2"
	2-1/2"x1-1/2"	2-1/2"
	2-1/2"x2"	2-1/2"
	3-1/2"x3"	3-1/2"

*Stationary rods are supplied with H-10312 and H-10332 only. Stationary rods are optional with all other boxes within these pages and must be ordered separately.

** The H-10312 and H-10332 are the same except that the H-10312 has a one piece lid and the H-10332 has a combination lid and pentagon plug.

CURB BOXES - OPTIONAL EQUIPMENT

H-10321 Shut-off rod
Lengths: 2', 3', 4', 5', 6', 7', 8', 10', and 12'

For use with all Buffalo type boxes and the following curb boxes: H-10300, H-10302, H-10304, H-10306, H-10308, H-10310, H-10316, H-10336, H-10385, H-10386, H-10387, H-10388 will fit stops and valves to 2" in size. One end is flattened like a chisel and the other end is pointed for digging ice or dirt away from lid of box. Made of steel.

H-10322 Curb box key
Lengths: 2', 3', 4', 5' and 6'

Designed especially for use with H-10312, H-10314, H-10332, and H-10334 Curb boxes. One end of the crossbar handle has a curved point for digging ice or dirt away from lid of box. Other end has a spanner wrench for removing lids from the H-10312 or H-10314 boxes. Made of steel.

H-10330 Clean-out auger for 2-1/2" Buffalo boxes
Lengths: 4', 5' and 6'

H -10331 Clean-out auger for 3" Buffalo boxes

Used to open clogged Buffalo type curb boxes quickly and easily. Eliminates digging up box to reach the curb stop. One end of the handle is pointed for digging ice or dirt away from lid of box. Rod and crossbar handle are made of steel and auger spiral is made of malleable iron.

H-10356 Combination key
Lengths: 18", 27", 36", and 48"

For use with Buffalo type curb boxes to remove screw in lid and operate stationary shut-off rods. Will not fit tee head of curb valves or stops.

H-10323 Pentagon key - Ductile iron

Used for operating the screws of MUELLER and Buffalo type curb boxes or repair lids. One end is pointed for digging ice or dirt away from lid of box. Other end is a hammer head. Fits standard water works pentagon.

CURB BOXES - OPTIONAL EQUIPMENT

Repair Lids

H-10373

H-10373

H-10373 Repair lid for new style Buffalo type curb boxes

Size: 2-1/2"

H-10374

H-10374

H-10374 Repair lid for old style Buffalo type curb boxes

Sizes: 2-1/2", 3"

The sizes (size of lid) refer to the Buffalo box size at the base, not the upper section. Both types of repair lids are heavily constructed of gray iron, have a stainless steel standard pentagon screw*, and the word "WATER" in raised letters.

Size of lid	Minimum diameter	Maximum diameter
2-1/2"	2-13/16"	3-3/4"
3"	3-3/8"	4-1/8"

Note: When the top section of the box is broken off completely, whether old or new style, always use the old style (H-10374) repair lid.

** Repair lids only.*

Curb Box Sleeve

Curb Box Sleeve Installed

H-10342 curb boxes having a 1" upper section.

This cast iron curb box sleeve provides a convenient method of setting a curb box in cement. It prevents cement from adhering to the lid, a condition which could make it difficult or even impossible to remove the lid. To install the sleeve, the lid is first removed from the box, the sleeve is slipped over the upper section, and the lid is replaced. The sliding upper section of the curb box is raised or lowered, along with the sleeve, to the level of the concrete as it is poured.

Curb box adapter

H-10344 Curb box adapter
Sizes: 2-1/2"x2", 3"x2", 3"x2-1/2", 3-1/2"x2", 3-1/2"x2-1/2"

Sizes	2-1/2"x2"	3"x2"	3"x2-1/2"	3-1/2"x2"	3-1/2"x2-1/2"
Size of male Minneapolis thread	2"	2"	2-1/2"	2"	2-1/2"
Size of female Minneapolis thread	2-1/2"	3"	3"	3-1/2"	3-1/2"

This cast iron curb box adapter allows a Minneapolis pattern curb box to be used on 1-1/4", 1-1/2", and 2" Minneapolis pattern curb valves and stops. The adapter will add 5" to the length of the box. These adapters are not recommended for boxes with 1" upper section.

Standard pentagon screw

This screw is used in Buffalo type curb box lids, is made of red brass, and has a standard pentagon head.
H-10324 Standard pentagon screw
